EDUCATION

Khanya-Lesedi Secondary School

2018-2021

Matric

North-West University

2023-Present

BSc Information technology

PROFILE

Motivated and detail-oriented BSc IT student with a strong foundation in programming, databases, and systems analysis. Possesses excellent communication skills with the ability to explain technical concepts clearly to both technical and non-technical audiences. Adaptable, quick to learn, and eager to apply academic knowledge in real-world IT environments, including software development, systems analysis, and cloud-related roles. Thrives under pressure, takes initiative, and maintains a professional, growth-oriented mindset.

EXPERIENCE

Student Assistant: North-West University (NWU)

2025

- Assisted first-year IT students with programming practicals (C++) and module-related tasks
- Explained programming concepts and guided students through class exercises
- Provided support during lab sessions and assisted with marking practical work
- Developed mentoring, communication, and technical problem-solving skills

Industry-Based Academic Project – IT Support/Systems Analyst

2024

- Provided desktop and end-user support across HR, Finance and Admissions
- Installed and supported enterprise systems including Microsoft 365, Citrix and RX-Solutions
- Assisted with system configuration and troubleshooting in a SQL Server environment
- Gained exposure to Health Information Systeme used for patient registration and billing
